## ■ DECILLION HEALTHCARE

*12th Congressional District*

### **Infusion Pharmacy Provides Essential Health Care Services for Medicaid Patients and Children**

Patients living with chronic diseases can enjoy a better life thanks to Decillion Healthcare's innovative technology providing improved clinical, disease management, intervention and compliance program outcomes.

Decillion Healthcare is an infusion pharmacy focused on providing services to patients with specialized disorders such as: Hepatitis C, HIV, Multiple Sclerosis, Oncology, Psoriasis, Rheumatoid Arthritis, Crohn's Disease, growth hormone imbalance, nutritional therapies and other rare or chronic conditions. Decillion's service area stretches across the vast majority of Ohio with special focus on the rural and low-income communities where individuals struggle gaining access to quality health care services. The patient base is predominantly Medicare or Medicaid recipients and children with special needs.

Finance Fund Capital Corporation, an affiliate of Finance Fund, provided \$1 million of Community Health Loan Fund financing to Decillion. The loan proceeds will help fund working capital needs required to support accounts receivable, increase pharmacy jobs, purchase inventory, and provide training and development to create a Parent Mentor Program. The funds will also enable leasehold improvements to build an on-site support infusion suite to expand its services available to Medicaid patients and children with special needs.

Decillion provides a critical service to health systems and physician practices that are facing new challenges under the Affordable Care Act. These institutions have to transition their patients comfortably back into their homes as soon as possible and maintain their post-discharge health as an outpatient. As a home infusion pharmacy, Decillion works statewide with patients in their homes by preparing and dispensing their medication.

### **FINANCE FUND CAPITAL CORPORATION INVESTMENT IMPACT:**

- **\$1 million Community Health Loan Fund financing**
- **Created 7 FTEs employees and retained 5 FTEs employees**
- **Creating access to quality health care services for Medicare and Medicaid patients and children with special needs**
